

# IEEE ICUS 2022

## Call for Invited Session Proposals

2022 5th IEEE International Conference on Unmanned Systems (ICUS 2022), sponsored by IEEE Guangzhou Section, and Chinese Institute of Command and Control(CICC), organized by Sun Yat-sen University, Technical Committee on Unmanned Systems of CICC, Technical Committee on Swarm Intelligence and Cooperative Control of CICC, Technical Committee on Cooperative Control for Air Multi Intelligent Agents of CICC, will be held from October 14 to 16 in Guangzhou, China.

ICUS aims to provide an academic and technological exchange platform for scientists, engineers and practitioners over the world to discuss the latest academic and technical issues related to unmanned systems. It also offers an excellent opportunity for participants to share innovative ideas, recent findings and best practices on unmanned systems, robotics, automation, and intelligent systems.

Proposals are solicited from those wishing to organize an invited session on a specific topic. Each Invited Session should be composed of at least 6 papers.

We encourage Invited Session to solicit papers from different organizations instead of the same organization.

The organizer should submit an invited session proposal including the session title, a brief description of the session, and name, salutation, affiliation, email of organizer(s), to our conference email ([icus@c2.org.cn](mailto:icus@c2.org.cn)) before March 15, 2022.

The invited session proposal template can be downloaded from the conference website: <https://icus2022.c2.org.cn/Invited-Session/>

Once the proposal is accepted, the organizer will receive a Session Code by e-mail. The organizer should then distribute the session code to the authors for their use when submitting papers. And the session code can

also be posted on the conference website at the request of the session organizer.
